

Dear Parishoner,

The Vale Crematorium

As you will know, last July **Westerleigh** were granted permission to construct and operate a crematorium adjacent to the A44 to the north of the village. It was agreed at the Wychavon Planning Committee that a liaison group be established with the Parish Council and the first meeting has now taken place with the operators and their contractor.

Westerleigh has appointed **EnCon Construction Ltd** as the main contractor to carry out the construction phase of what is to be known as the **Vale Crematorium**. The works involve the construction of the new crematorium building together with a chapel, memorial garden, access road and car parking. The highway works on the A44 will involve widening the carriageway to provide the required access and turning lane into the crematorium.

EnCon will be moving onto site week commencing **February 12th** and Westerleigh hope to be fully operational by **October of this year**.

EnCon advise that the construction activity may generate additional traffic. However, the Parish Council is working with Westerleigh and EnCon to ensure that you are kept informed of the proposed steps in advance of works taking place.

All deliveries will be planned in advance and signage will be erected. Deliveries will be co-ordinated so that they do not interfere with peak travelling times. EnCon are anxious to carry out the works as swiftly as possible and to keep any disruption to a minimum.

Should you have any questions or issues now or during the construction phase, please address your enquiries either directly to EnCon at the numbers and email addresses shown below or to the Parish Council. The Council will be liaising regularly with EnCon and Westerleigh and will be sharing information on any issues that arise.

In the meantime, if you would like more information or clarification, please do not hesitate to get in touch.
